ABOUT ME

I am a Fullstack Engineer with over 3 years of experience, I have built numerous web applications using various programming languages, frameworks, and tools like Laravel, Vue, React and Flutter. My expertise includes developing scalable and performant applications, implementing responsive and intuitive user interfaces, deploying to different platforms and working collaboratively with cross-functional teams. I am passionate about writing clean and maintainable code, staying up-to-date with industry trends, and continuously improving my skills. With a strong foundation in both front-end and back-end development, I am adept at designing and developing fullstack solutions that meet business requirements and exceed user expectations.

FRONTEND STACK

Vue React Nuxt Next Bootstrap Tailwindcss SCSS JQuery

BACKEND STACK

Laravel Node Express Django Livewire Firebase

MOBILE AND DESKTOP APP DEVELOPMENT

Flutter React Native Qusar

PROJECTS

projects done | participated

- Video sharing Application
- Doctor and Hospital Management system
- Ecommerce Application
- Social media Platform
- Lideta Health science College Website
- Logistics System
- Ride Hailing System

DEPLOYMENT AND CONTAINERIZATION

deployment and containerization

- Test driven development(jest cypress phpunit)
- Web server(apache nginx)
- Hosting(vps digitalocean AWS GCP)
- Containerization(docker kubernetes)

WORK EXPERIENCE

[21/02/2025 – 29/08/2025]

HADDIS ART

- Complete detailed programming and development tasks for front end as well as challenging back-end server code.
- Successfully completed several small tasks with deadlines which let me adapt to working under a tight deadline and how to divide/prioritize tasks.
- Designed and implemented mobile first, user friendly UI designs for responsible and accessible websites.
- Orchestrate efficient large-scale software deployments, including testing features and correcting code.
- Propose improvements to code organization to improve code quality and overall performance.
- Meet with project manager and team members to provide detail project reports and milestone updates

[01/09/2024 – 15/02/2025]

BIRITU SAVING & CREDIT COOP

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs, and enhancements.
- Involve in all phases of Software Development Life Cycle including user interface, API development, deployment and mobile application development
- develop easy to use and optimized administration dashboard for administrators
- Provided documented API for the mobile application team to use
- Successfully completed several small tasks with deadlines which let me adapt to working under a tight deadline and how to divide/prioritize tasks

[01/2023 – 30/07/2024]

POOL TECHNOLOGY SOLUTIONS

- Built integrations for appropriate map services, SMS services and payment systems.
- Coached junior developers and interns.
- Wrote easy-to-understand, structured documentation for the open-source community with easy-to-use tools such as Postman Collections.
- Worked directly with the headquarters located in Nairobi, Kenya using remote development technologies
- Improved product speed and quality by revising and refactoring code written by less experienced developers.
- Orchestrate efficient large-scale software deployments, including testing features and correcting code

[01/2022 – 09/2022]

MADOT TECGNOLOGY

- Led the development and architectural design of a complex web application implementing scalable and maintainable backend architecture.
- Actively contributed to the company's engineering culture by sharing knowledge, delivering tech talks during weekly dev-team retrospectives, and organizing internal workshops or training sessions.
- Collaborated with cross-functional teams to design, develop, and deploy app with integrations on various platforms, resulting in a successful launch of the product.
- Taken products from 0 to 1, while leading fellow developers in the team.

[06/2021 – 12/2021]

BOTAYE DATA SCIENCE

- Preparing reports on programming project specifications, activities, or status.
- Conferring with project managers to obtain information on limitations or capabilities.
- Directing software programming and documentation development.
- Implemented UI designs for responsive and accessible websites

EDUCATION AND TRAINING

Electrical and Computer Engineering

Addis Ababa University

SKILLS

soft skills

- Strong problem solving ability
- adaptability to new technologies
- effective communication skill
- team collaboration
