ABOUT ME

I'm a software engineer by profession, driven by a passion for solving real-world problems and creating meaningful solutions. But beyond the code, I'm a family man who deeply values connection and the small moments that make life rich.

Art is another part of who I am, it shapes the way I see the world and inspires creativity in everything I do. On weekends, you'll find me enjoying the simple things: playing football, exploring new flavors, or discovering new places. For me, life is about balance, embracing work, creativity, and joy in equal measure. 😊

FRONTEND STACK

Vue React Nuxt Next JQuery Bootstrap Tailwindcss

BACKEND STACK

Laravel Livewire NodeJs Express Django Firebase

MOBILE AND DESKTOP APP DEVELOPMENT

Flutter React Native Quasar

PROJECTS

projects done | participated

- Video sharing Application
- Doctor and Hospital Management system
- Ecommerce Application
- Social media Platform
- Lideta Health science College Website
- Logistics System
- Ride Hailing System

DEPLOYMENT AND CONTAINERIZATION

deployment and containerization

- Unit and Integration Test(jest cypress phpunit)
- Web server(apache nginx)
- Hosting(vps digitalocean AWS GCP)
- Containerization(docker kubernetes)

PROFESSIONAL WORK EXPERIENCE

[21/02/2025 – 29/08/2025]

HADDIS ART

- Complete detailed programming and development tasks for front end as well as challenging back-end server code.
- Successfully completed several small tasks with deadlines which let me adapt to working under a tight deadline and how to divide/prioritize tasks.
- Designed and implemented mobile first, user friendly UI designs for responsible and accessible websites.
- Orchestrate efficient large-scale software deployments, including testing features and correcting code.
- Propose improvements to code organization to improve code quality and overall performance.
- Meet with project manager and team members to provide detail project reports and milestone updates

[01/09/2024 – 15/02/2025]

BIRITU SAVING & CREDIT COOP

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs, and enhancements.
- Involve in all phases of Software Development Life Cycle including user interface, API development, deployment and mobile application development
- develop easy to use and optimized administration dashboard for administrators
- Provided documented API for the mobile application team to use
- Successfully completed several small tasks with deadlines which let me adapt to working under a tight deadline and how to divide/prioritize tasks

[01/2023 – 30/07/2024]

POOL TECHNOLOGY SOLUTIONS

- Built integrations for appropriate map services, SMS services and payment systems.
- Coached junior developers and interns.
- Wrote easy-to-understand, structured documentation for the open-source community with easy-to-use tools such as Postman Collections.
- Worked directly with the headquarters located in Nairobi, Kenya using remote development technologies
- Improved product speed and quality by revising and refactoring code written by less experienced developers.
- Orchestrate efficient large-scale software deployments, including testing features and correcting code

[01/2022 – 09/2022]

MADOT TECHNOLOGY

- Led the development and architectural design of a complex web application implementing scalable and maintainable backend architecture.
- Actively contributed to the company's engineering culture by sharing knowledge, delivering tech talks during weekly dev-team retrospectives, and organizing internal workshops or training sessions.
- Collaborated with cross-functional teams to design, develop, and deploy app with integrations on various platforms, resulting in a successful launch of the product.
- Taken products from 0 to 1, while leading fellow developers in the team.

[06/2021 – 12/2021]

BOTAYE DATA SCIENCE

- Preparing reports on programming project specifications, activities, or status.
- Conferring with project managers to obtain information on limitations or capabilities.
- Directing software programming and documentation development.
- Implemented UI designs for responsive and accessible websites

EDUCATION AND TRAINING

Electrical and Computer Engineering(Computer Stream)

Addis Ababa University | Addis Ababa Institute of Technology(AAiT) [28/09/2017 – 15/07/2023]

City: Addis Ababa | Country: Ethiopia | Website: <https://www.aau.edu.et/>

SKILLS

soft skills

- Ability to write clean, efficient and documented code
- Excellent problem-solving and analytical skills
- Effective communication skill and team collaboration
- Ability to meet deadlines and work under pressure
