## ABOUT ME

---

I am a versatile software developer with a passion for building innovative web and mobile applications. With a strong background in full-stack development and mobile app development, I have successfully led the development of complex web applications, optimized user interfaces for performance and responsiveness, and implemented scalable architectures using cutting-edge frameworks.

I am always excited to explore new technologies, contribute to impactful projects, and work with dynamic teams that push the boundaries of innovation.

## FRONTEND STACK

---

**Vue React Nuxt Next Bootstrap Tailwindcss SCSS Figma**

## BACKEND STACK

---

**Laravel Livewire Django NodeJs Firebase REST Graphql**

## MOBILE AND DESKTOP APP DEVELOPMENT

---

**Kotlin Flutter Quasar**

## PROJECTS

---

### projects done | participated

- Logistics System(Jestra,Mekodi)
- Doctor and Hospital Management system(Tiruhakim)
- Ecommerce Application
- Social media Platform
- Lideta Health science College
- Video sharing Application
- Ride Hailing System(Pool Taxi)

## DEPLOYMENT AND CONTAINERIZATION

---

### deployment and containerization

- Test driven development(jest cypress phpunit)
- Web server(apache nginx)
- Hosting(vps digitalocean AWS GCP)
- Containerization(docker kubernetes)

## WORK EXPERIENCE

---

[ 01/2023 – 30/07/2024 ]

## **Pool Taxi**

- Built integrations for appropriate map services, SMS services and payment systems.
- Coached junior developers and interns.
- Wrote easy-to-understand, structured documentation for the open-source community with easy-to-use tools such as Postman Collections.
- Worked directly with the headquarters located in Nairobi, Kenya using remote development technologies
- Improved product speed and quality by revising and refactoring code written by less experienced developers.
- Orchestrate efficient large-scale software deployments, including testing features and correcting code

[ 11/2022 – 12/2022 ]

## **Snap Tax**

- Gather and define customer requirements to develop clear specifications for creating well-organized project plans
- Discuss project progress with customers, collect feedback on different stages and directly address concerns
- Meet with project manager and team members to provide detail project reports and milestone updates
- Worked directly with the lead developers located in New Delhi, India using remote development technologies

[ 01/2022 – 09/2022 ]

## **Madot Technology**

- Led the development and architectural design of a complex web application implementing scalable and maintainable backend architecture.
- Actively contributed to the company's engineering culture by sharing knowledge, delivering tech talks during weekly dev-team retrospectives, and organizing internal workshops or training sessions.
- Collaborated with cross-functional teams to design, develop, and deploy app with integrations on various platforms, resulting in a successful launch of the product.
- Taken products from 0 to 1, while leading fellow developers in the team.

[ 06/2021 – 12/2021 ]

## **Botaye Data Science**

- Preparing reports on programming project specifications, activities, or status.
- Conferring with project managers to obtain information on limitations or capabilities.
- Directing software programming and documentation development.
- Implemented UI designs for responsive and accessible websites

## **EDUCATION AND TRAINING**

---

### **Electrical and Computer engineering**

*Addis Ababa University*

## **SKILLS**

---

### **soft skills**

- Strong problem solving ability
- adaptability to new technologies
- effective communication skill
- teamwork
