ABOUT ME

I am a Senior Software Engineer with 4+ years of experience building and deploying scalable web and mobile applications, specializing in React, Vue, Laravel, Node.js and Django. I enjoy creating applications that are both beautiful and highly functional, and I am always eager to learn new technologies and develop professionally.

PROFESSIONAL WORK EXPERIENCE

21/02/2025 – 29/11/2025

HADDIS ART

- Coordinated with multi-disciplinary teams to design, execute, and deploy government solutions.
- Completed several small tasks with deadlines, which let me adapt to working under a tight deadline and learn how to divide/prioritize tasks.
- Designed and implemented mobile-first, user-friendly UI designs for responsible and accessible websites.
- Managed large-scale software deployments including testing features and fixing code issues.
- Proposed improvements to code organization to improve code quality and overall performance.
- Debugged complex issues across the UI, API, and database using logs and dev-tools.

01/09/2024 – 15/02/2025

BIRITU SAVING & CREDIT COOP

- Wrote easy-to-understand, documented API for the mobile app using Postman Collections.
- Involved in all phases of the Software Development Life Cycle, including user interface, API development, deployment, and mobile application development
- Led the development an easy-to-use and optimized administration dashboard for administrators.
- Launched cross platform mobile application of Biritu using React Native.

01/2023 – 30/07/2024

POOL TAXI

- Built integrations for appropriate map services, SMS services, and payment gateways.
- Worked directly with the headquarters located in Nairobi, Kenya, using remote development technologies.
- Integrated core features like achievements, spin and win lottery system, backup system
- Improved product speed and quality by revising and refactoring code written by less experienced developers.
- managed large-scale software deployments to AWS and GCP, including testing features and correcting code
- Mentored internships, providing guidance on coding practices, design, and API development.

01/2022 – 09/2022

MADOT TECHNOLOGY

- Contributed to the development of Logistics Systems and Lideta Health Science College website, with UI improvement and API development.
- Developed and maintain user interfaces using modern frameworks like React.js, Vue.js, Bootstrap and Tailwindcss.
- Designed and implemented backend features, including authentication, authorization and database architecture of application.
- Gathered, documented, and maintained software requirements throughout the project lifecycle.
- Converted design prototypes created in Figma into functional, dynamic web components using React and Tailwindcss.

01/01/2023 – CURRENT

FREELANCE

- Developed and maintained websites and web applications for various clients using different technologies
- fixed small tasks and bugs for different clients on their existing applications in Freelance Ethiopia Afriwork.

- Developed portfolio websites for clients to showcase their work and skills.
- fixed deployment issues for different clients on their applications hosted on various cloud platforms.

PROJECTS

Projects Completed and Contributed To

- Video sharing Application
- Ecommerce Application
- Ride Hailing Application
- Digital Saving System
- Logistics System
- Doctor and Hospital Rating system

FRONTEND AND MOBILE DEVELOPMENT

React • Next.js • Vue • Nuxt • React Native • Flutter • Tailwind CSS • Bootstrap

BACKEND DEVELOPMENT

Laravel • Node.js • Django • MySQL/PostgreSQL/MongoDB • Firebase

DEVOPS AND CLOUD

Docker • Kubernetes • GitHub Actions • AWS • GCP

ARCHITECTURE & ENGINEERING

API Design • System Design • Software Architecture • Distributed Systems • Microservices • Design Patterns • Scalability • Performance Optimization

EDUCATION AND TRAINING

BSC DEGREE Addis Ababa University

Field of study Electrical and Computer Engineering • Computer Engineering
